**What was the one best part of the workshop?**

- The theme made it a lot more interesting and enjoyable. Also, I really enjoyed the “Show & Tell” presentations.
- Discussion on social media.
- The show and tell presentations - made it easier to understand.
- The discussion.
- Hearing input from my peers in other departments.
- It was engaging! Learning what other departments are doing.
- They made it fun and informative. Open conversations.
- Clearer understanding of the flow of mission/vision to IE and Assessment.
- The use of the theme made the information ‘stick’ and when looking at data the process was simpler and understandable.
- Learning IE.
- The open discussions on questions. I felt this was a very open discussion/presentation.
- Discussion about innovation.
- I don’t think there was one best part; the entire workshop was great.
- Theme, popcorn.
- You did an awesome job of making it fun and easy to understand.
- Ability to learn and be a part of the process so I am able to understand and contribute effectively.
- Informative. Made it clear to me how other departments/divisions are going through the process.
- As faculty it was helpful for me to learn more of the ‘behind the scenes’ work being done.
- The energy of the presenters.
- The information presented increased my knowledge.
- Your creativity.
- The open and honest discussions.
- Show and tell and including faculty.
- The intro film.
- Fun theme - not just blah, blah, blah.
- The way the material was presented.
- Dan’s movie theme.
- Discussion with staff. Also, well organized and fun.
- The discussion.
- The definition of the key terms.
- First meeting I’ve been at which had opportunity for actual dialogue not just Q&A. Thank you!
- Open conversation with all Department/Division represented- Faculty present was helpful.
- All of it was great and enlightening. Wonderful job!

**What was the one part of the workshop that needs the most improvement?**

- Great job!
- A comparison of academic vs. student services assessment of effectiveness.
- Time.
- More “living” space.
- Not improvement; but I wish we had gone until 12n so that we didn’t have to rush through the last part.
- Volume, side conversations.
-Spend a little time writing an actual report like the example.
-Would have been helpful to have the group work. However, discussion was good also.
-Not allowing ‘opinion’ discussion.
-Offer info to all faculty. Utilize professionals with student development theory background.
-The connection between the them (red carpet, movies) and the content (assessment, IE and performance indicators).
-No complaints, all good.
-Have it at a different time of year, such as a month or two after the semester begins.
